## COP26 Glasgow Climate Change Conference

'Humanity has never before had at its disposal so many means for achieving this goal. The political decision makers who will meet at Cop26 in Glasgow are urgently summoned to provide effective responses to the present ecological crisis and in this way to offer concrete hope to future generations.

And it is worth repeating, each of us, whoever and wherever we may be, can play our own part in changing the collective response to the unprecedented threat of climate change and the degradation of our common home.'
